Choose the Odyssee as a poetic and cultural addition
To the greek art. as Artisans not only scupture
But use all fashions to reach a respected place.

Hera as the wife and consort of the highest greek god known
As Hera represents the life of a devoted adept, as abjecting all

Reaching the life end in a good fashion

And the society. As a statue gifts from the mercy he grants.

Hephaestus, keep his statue in home when to choose a new Science or a tool to improve life.

As he is the scientist of greek mythology. As on Olympos All the sciences were avaiable, and in primitive cultures This statue was a neutral kind of giving all sciences a Respected place.

As she tells when grain is for farmers, and we like
More tasty food, give us meat.

As she brings the prey to our doors,
And she gives her food as a blessing.

Meat there was more delicious than at my fireplace.

Artemis is a goddess also of chastity, because not all
People want to kill food. So she has more than one
function. As one tells. When a goddess grants food,
There can be no sin by receiving this blessing.

As Athene is the goddess both of chastity, wisdom, and
